Tableau Projects Assignment 2

Problem Statement:

Rain is a natural phenomenon that has extreme importance in human society. In life, many people depend on rain for their livelihood and more. Kids love rain very much.
So as a treat to that, here is a dataset of Rainfall in Australia.
Find key metrics and factors and show the meaningful relationships between attributes.
Do your own research and come up with your findings.

Dataset:

You can find the dataset on the given link
